

Berry Basket Weaving

1. Take basket and weave ribbons throughout the plastic walls. I did an over and under pattern. You can pick a different pattern, such as 2 over and 1 under.
2. I also strung a bead every so often when I was weaving. They can't be strung beforehand.
3. Tie ends together after each row.
4. You can also add a bow at the end.
5. Take the paper square and place in the bottom of the basket.
