

## Funny Toilet Paper Tube People

1. Take the shorter tube and draw a face (choose the facial expression that you want) and arms.
2. Take the longer tube and cut a piece off and cut that in half lengthwise. Roll them up to make the legs. Glue or tape in place.
3. Cut out feet and hair from the long tube. Glue in place. I also made ears and glued those on.
4. You can decorate your person how you want. I liked the look of the natural card board so I left it as is.
