

Monster Corner Bookmarks

1. Cut out monster pieces.
2. Take the plain square and glue it onto the square with the triangles.
3. Fold triangles so they overlap each other and glue to each other. Do not glue triangles to square. This becomes the pocket for the book page.
4. Glue teeth and eyes to monster head.
5. You can mix up the colors to make each monster more unique.
6. Use crayons, colored pencils, and/or markers to embellish your bookmark.
