

Windsock Decoration

1. Take paper and fold in half lengthwise and decorate. I chose a spring theme. What do you choose?
2. Open the paper and tape or glue ribbons (save 5 ribbons to hang after) along the open edge.
3. String beads onto ribbons and tie the ends. (They can be anywhere on the length of the ribbon just put a knot to keep the bead(s) in place.)
4. Fold in half again and roll the ends to make a cylinder and tape or glue shut.
5. Tie the ribbons that you saved to each one of the holes.
6. Take the four ribbons and knot them together to be able to hang windsock. Attach the 5th ribbon to the combined strings to hang.
